## Dots and Boxes

Take turns drawing a line between two dots that sit next to each other, across or down. Whoever closes a box writes their initial in it and goes again. When every box is closed, the player who owns more boxes wins. Two rounds; the other player starts the second.

## Tic-Tac-Toe XXL

Nine small boards make one big board. The first player puts an X anywhere. Where you play inside a small board decides where your opponent must play next: a move in the top-right square sends them to the top-right board. Win a small board with three in a row and your mark goes on the big board. Sent to a board that is already decided? Play anywhere. Three big marks in a row win.
